Harrier

Array Technologies introduces the latest in HP technology with the Harrier process color inkjet printer. The Harrier brings your messages to life through CMYK case coding for images, logos, and graphics, as well as allowing for large character markings, barcodes, and numbering. This user-friendly, low-maintenance, and highly flexible inkjet printer enables printing on both the sides and the tops of your boxes. By printing variable messaging directly onto the packaging, the Harrier eliminates the need for labels, enhances recyclability, and reduces waste.

Process Color Inkjet Printer

- Low-cost process color inkjet
 - Low operational cost – Process color at monochrome cost
 - Low capital cost
 - Low maintenance cost – Revolutionary simple design
 - Low parts cost
- Ease of Use
 - Make ready – very fast, print in seconds
 - Auto switching dual ink supplies
 - Reduced operator intervention
 - Simple printhead replacement
- Reliability
 - HP engineered 4.25" inkjet print cartridges
 - High uptime
 - Resolves decap issues
 - Enables nozzle recovery
- Print Vertical and Horizontal
 - Print on top of the corrugated box and on the side of the corrugated box
- Water-based inks – Environmentally safe and compliant
- Quality – Industry-leading 1200 DPI

Specifications

- 4.25", 8.5", and 12.75" wide printheads
- Native 1200 DPI
- Up to 34" systems
- Speeds up to 600 FPM
- Throw distance up to 10mm

Applications

- Corrugated box lines
- Secondary packaging
- Paper bag converters
- On-demand dynamic box lines
- Product identification
- Barcoding
- Hazmat identification
- Graphics
- Box identification data
- Label replacement
- Addressing

4.25" Print head

8.5" Print head with dual ink supply
